APPLICATIONS DEVELOPED

Book Palace – Live | GitHub
- Engineered a fluid and visually compelling application interface using **React** ensuring the development of a responsive and highly interactive user experience across diverse devices.
- Implemented a **RESTful API** architecture using **Express**, streamlining communication between the front-end application and the database, enabling seamless data retrieval and modification for efficient API interactions.
- Created and managed database schema using **PostgreSQL**, storing essential customer data like wishlists and carts

Advanced Building Services – Live | GitHub
- Developed a comprehensive and user-centric web application for an HVAC company with **React**, **TypeScript**, **Tailwind CSS**, and **EmailJS** to enhance online interaction and simplify customer service outreach.
- Collaborated with a UI/UX designer to ensure a consistent user experience across both desktop and mobile devices.

Anytime Promotion – Live | GitHub
- Designed an interactive application for an entertainment company's promotion platform using **React**, **TypeScript**, and **Tailwind CSS**, and integrated **Caspio** and **Netlify** to streamline submissions and to enhance user engagement.

Watchlist – Live | GitHub
- Crafted a mobile-first, responsive, and adaptive web application with advanced **CSS3** techniques and leveraged **JavaScript** to enhance button functionalities, ensuring dynamic and intuitive user interactions across various devices.

PROFESSIONAL EXPERIENCE

Front End Engineer, Freelance – La Mirada, CA   Jul 2023 – Present
- Utilized UX/UI designs to engineer a responsive, high-conversion landing page for Advanced Building Services using **React** and **TypeScript**, featuring dynamically validated forms with seamless email routing via **EmailJS**, significantly enhancing lead generation and user experience.
- Successfully executed a web application for Anytime Promotion with a focus on meeting business objectives, resulting in a notable 30% increase in website visitor engagement and inquiries through the site.
- Enhanced user experience and functionality for Emagine Mobile by updating existing interfaces with modern **JavaScript**, **HTML5**, and **CSS3** techniques, improving navigation, visual appeal, and interactivity.

Billing Specialist, Emergency Ambulance Service – Brea, CA   Feb 2022 – Feb 2023
- Validated and updated patient records and insurance with hospital teams, demonstrating exceptional detail using RescueNet's tools for approximately 400 accounts at a time, resulting in 25% quicker streamlined processes.

Retail Store Associate, Adidas – Orange, CA   Position ended due to COVID-19 impact | Sep 2018 – Jan 2021

EDUCATION

Full Immersion Web Development Program, LearningFuze – Irvine, CA   Jan 2023 – May 2023

Bachelor of Arts Degree in Psychology, University of California, Irvine – Irvine, CA   Jun 2018 – Jun 2020
